

EDUCATION

MSc, Applied Mathematics (Quantitative & Computational Finance)	2016 - 2018
University of Science, Vietnam National University HCMC - Distinction	
BA, Economics and Finance	2012 - 2015
RMIT University - Distinction	
Mathematics (specialised), High School for the Gifted, VNU-HCMC	2009 - 2012

RESEARCH EXPERIENCE

Capstone Project - HCMC University of Science	Jan - Mar 2018
Applied the three-layered boosting and expert-weighting online-learning framework of Creamer and Freund (2010) to the Vietnamese stock market, using an event-study / abnormal-return methodology to find optimal combinations of technical indicators and parameters for positive abnormal returns. The same signal-combination approach is what the proposed PhD would extend from technical indicators to text- and LLM-derived sentiment signals for earnings-surprise prediction. Supervised by Dr Minh Dang .	
Master's Thesis - HCMC University of Science	2018
Extended the smile-adjusted delta-hedging approach of Hull and White (2017) with supervised ML (gradient-boosted trees) to reduce hedging variance for options on the S&P 500 index and its constituents, 2004-2015. Supervised by Dr Minh Dang .	
Research Assistant - RMIT University Vietnam	Aug 2016 - Mar 2017
Co-authored learning-and-teaching research with A/Prof. Mathews Nkhoma : literature review, database searches, and qualitative & quantitative data analysis, resulting in the peer-reviewed conference paper listed below.	

PUBLICATIONS

Nkhoma, C. A., Nkhoma, M., Ulhaq, I., & Mai, S. Q. (2017). [Enhancing students' learning through early class preparation](#). Proceedings of InSITE 2017, 85-95. [doi:10.28945/3756](#)

PROFESSIONAL EXPERIENCE

Ho Chi Minh City Securities Corporation (HSC)	2017 - Present
One of Vietnam's leading brokerage and investment-banking firms.	
Manager / Senior Manager - Quant & Warrant Trading	Jan 2024 - Present
- Established the equity quant trading desk from the ground up; - Build models to backtest and construct quantitative portfolios maximising absolute and risk-adjusted equity returns; supervise the covered-warrant desk.	
Senior / Covered Warrant Trader; ETF Trader	Sep 2017 - Dec 2023
- Product development, pricing, market-making and reporting for HSC's covered-warrant and ETF portfolios (authorised participant); backup coverage for index arbitrage.	
Investment Analyst - Saigon Asset Management (SAM)	Aug 2014 - Aug 2015
Research and valuation of Vietnamese listed companies (DCF and comparables) for funds with once over USD\$200m AUM.	

TECHNICAL SKILLS

Econometrics & event studies - Supervised ML (gradient boosting, online learning) - Python (pandas, scikit-learn) - C++ - LaTeX

CREDENTIALS

CFA Charterholder (2022) - Fund Management Professional License, Vietnam (2023)
